

RTO-16

SPD - for low voltage / Others / Bridges

Separating inductor (bridge) for coordination of SPDs

- coupling impedance
- for coordination of SPDs type 1 and 2 or type 2 and 3

Product dimensions

Basic circuit diagram

Parameter name	Parameter value
Mounting	DIN rail 35 mm
Nominal voltage	U_n 450 V AC
Nominal load current	I_L 16.000 A
Frequency	f 50 Hz
Resistance	R 7 mOhm
Inductance	L 3.20 uH
Maximum overcurrent protection	16 A gL/gG or C 16 A
Power loss at I_L	1.66 W
Cross-section of connected conductors solid (max)	10.00 mm ²
Cross-section of connected conductors stranded (max)	10.00 mm ²
Cross-section of connected wires stranded with ferrule (max)	10.00 mm ²
Degree of protection	IP 20
Range of ambient temperatures (min/max)	-40 / 40 °C
ETIM Class	EC002496
Customs tariff number	85363010
EAN	8595090541776
Order number	A04177
