

DMP-012-V/1-JFR1

SPD - for data, signalling and telecommunications lines / I&C / Supply (DP and DMP) - with signalling line

Surge protection for 3-core line (combination of signal and supply lines)

pluggable module, coupling impedance (R – resistance) in part of data, line separated from protective earth via GDT

- surge protection of 3-core line comprehend signal transmission and supply
- installation close to protected equipment
- for protection of interfaces of I&C, electronic security and fire detection systems, etc., mainly for measuring circuits and sensors where signal and supply are transmitted in one cable, against surge voltage
- single common wire for power supply and signal transmission
