

# BDGHF-024-V/1-FR1

## SPD - for data, signalling and telecommunications lines / I&C / Specials - for BUS systems (high speed rate)

Lightning current arrester with coarse and fine surge protection of 2-core high-speed shielding floating signalling lines

pluggable module, coupling impedance (R – resistance), line separated from protective earth via GDT

- lightning current arrester with coarse and fine surge protection of 2-core high-speed signalling lines
- installation at the boundary of LPZ 0 and LPZ 1 zones or higher, at the line entry into building and also installation close to protected device
- for protection of telecommunication lines (version BDGHF-230) and interfaces of I&C, MaR systems, electronic security and fire detection systems, etc. (mainly for RS-485, PROFIBUS interfaces) against surge voltage
- coarse and fine surge protection (core – core) in differential mode and coarse surge protection in common mode (line – PE)
